### STUDY IN UK

UK qualifications are recognized and respected all over the world. It is the oldest established educational system & provides a solid foundation for all skills required to do well and succeed in a globalised world economy.

#### **World-class Qualification**

The international alumni from UK institutions includes many leading politicians, thinkers and business people who have had an important influence on the world such as Bill Clinton (former President of the USA), Wole Soyinka (Nobel prize-winning author) and Imran Khan (cricket legend and politician).

### **Modern Learning Environment**

Employers want employees who can think effectively, creatively and independently. UK institutions use a variety of teaching and assessment methods to encourage independence as well as mastery of the subject. Students are expected to use the information they are given to stimulate their original thinking.

#### students Affordable

- Realization of earning potentials sooner.
- Numerous Scholarships/bursaries offered by UK institutions.
- Almost free health care by National Health Service.
- Student discount facilities provided free through National Union of Students membership for all students.

## STUDY IN SWEDEN

The Higher education system in Sweden is divided into three levels: basic level (grundnivå), advanced level (avancerad nivå), and graduate level (forskarnivå). Sweden has 41 higher education institutions, high school colleges (first cycle universities) and universities.

The most reputed degrees have tended to be in humanities, although the government is now trying to boost science studies. Most undergraduate courses are taught jointly in English and Swedish. Masters tend to attract many international students, with more than 450 masters courses taught solely in English. The academic year is divided into 40 weeks, with two semesters. The first semester runs from the middle of August until the middle of January, and the second runs from the middle of January until June.

**Linnaeus University** 

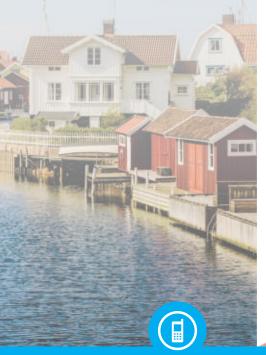

**Blekinge Institute of Technology** 

**Halmstad University** 

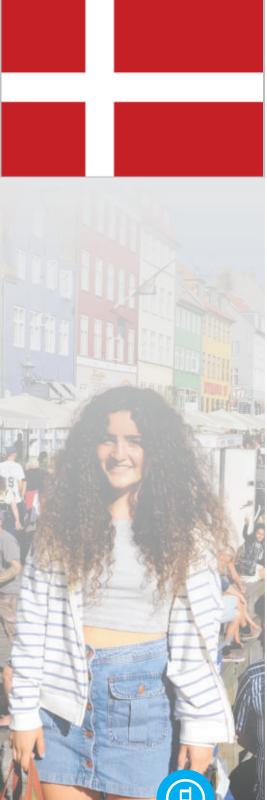

**Kristianstad University** 

## STUDY IN DENMARK

As an international student in Denmark you can expect world-class education in areas such as engineering, life sciences, social sciences and IT. You will also be studying in a safe, friendly and innovation-driven environment.

In Denmark, higher education is focused on bringing about solutions for the real-world. Thus, traditional lectures are combined with industrial collaborations and teaching methods that promote students' ability to use what they have learned and to turn new knowledge into innovative solutions.

This way of studying requires a high degree of personal initiative and independent thinking. Thus, for some studying in Denmark can be challenging and different from what they are used to. We feel confident that it will inspire you and help you succeed in whatever you decide to do in life.

### **Business Academy Aarhus**

### STUDY IN FINLAND

There are 14 universities in the Ministry of Education and Culture sector; two of them are foundation universities and the rest are public corporations.

From the beginning of 2010 universities have had the status of independent legal entities and been separated from the state. However, the state continues to be the primary financier of the universities. Direct government funding covers about 64% of university budgets. In addition, universities are encouraged to acquire private donations.

At universities students first complete the Bachelor's degree (Finnish: kandidaatin tutkinto Swedish: kandidatexamen), after which they may go for the Master's degree.

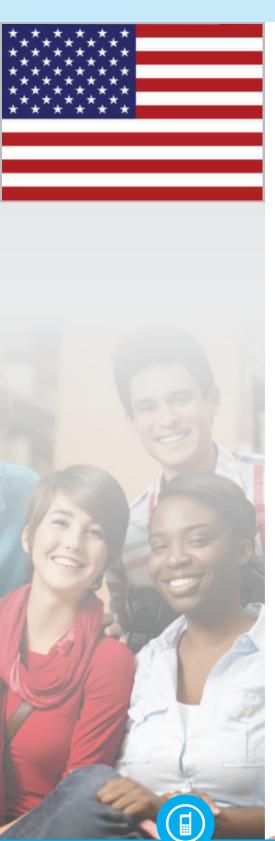

#### **Universities**

- Arcada University of Applied Sciences
- Haaga Helia University of Applied Sciences
- Helsinki School of Business
- Kajaani University of Applied Sciences
- Lappeenranta University of Technology
- Metropolia University of Applied Sciences
- Satakunta University of Applied Sciences
- Seinajoki University of Applied Sciences
- Turku University of Applied

### STUDY IN USA

The U.S. is a country of 50 states covering a vast swath of North America, with Alaska in the northwest and Hawaii extending the nation's presence into the Pacific Ocean. Major Atlantic Coast cities are New York, a global finance and culture center, and capital Washington, DC. Midwestern metropolis Chicago is known for influential architecture and on the west coast, Los Angeles' Hollywood is famed for film making.

### **Educational Standards**

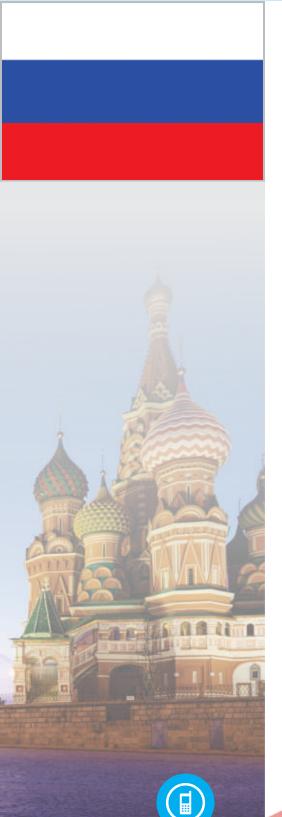

An American college typically offers a blend of natural and social sciences and humanistic studies. Students are usually 18 to 22 and attend college for around four years to earn a bachelor's degree in arts or science. On the other hand, a university is usually composed of an undergraduate college of arts and sciences, plus graduate and professional schools and facilities.

#### **Universities**

- Point Park University
- Rivier University
- Alvernia University
- Concordia University St. Paul
- Virginia Wesleyan University
- West Virginia State University

### STUDY IN RUSSIA

Russia is a perfect destination for students interested in the arts, as Russia is historically known for its excellence in literature, ballet, painting, and classical music. International students in Russia studying literature will have the opportunity to study some of the world's most famous writers' home country.

### **Cost of Moscow Tuition**

One of the biggest draws for international students studying in Russia is the price of tuition. Tuition is Russia is extremely inexpensive, especially in comparison with the quality of education which it buys. Typically, tuition can range from \$2,000 to \$8,000 a year, with added costs such as room and board and books ranging from \$1,500 to \$5,000 a year, depending on location.

#### **Accommodation**

The University provides with comfortable accommodation in a charming district of Moscow, in close proximity to the study campus, and just 15 minutes from the city-center by metro.

### **Education System**

Russia possesses one of the best mass-education systems in the world, and has a long-standing tradition of high-quality education for all citizens. Russia's education system produces a 98% literacy rate, exceeding that of most Western European countries.

### Synergy University Moscow

Synergy University or Moscow University for Industry and Finance is one of the largest universities in Russia with 35000+ students, 40 regional units & wide international representation in London, Singapore and now in Dubai.

### STUDY IN **NORTH CYPRUS**

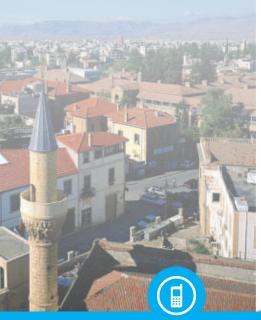

Northern Cyprus education system has grown rapidly over the past few years and provides a very high standard and variety of education packages which has started to attract many western foreigners especially at University level.

Cyprus is the most easterly of the Mediterranean islands and the third largest in the area after Sicily and Sardinia. There are more than 88,000 university students from 135 different countries currently enrolled in 16 major universities in North Cyprus. For a quality education at affordable fees, North Cyprus is the choice that thousands of students make every year.

Universities on the island also offer halls of residence accommodation for students, although apartment renting is common amongst groups of students with North Cyprus generally being fairly affordable for most.

### **Universities**

European University of Lefke (EUL)

# STUDY IN TURKEY

Turkey has a unique strategic position at the crossroads of East and West which endows this country with nearly ten-thousand years of history. As part of Asia and part of Europe, Turkey has remarkably wide climatic and geographical variations. Due to its location, surrounded by seas on three sides, Turkey as always been the center of great trade, silk and spice routes.

Foreign students who would like to enroll in the post-graduate programs of the Turkish institutions of higher education can apply directly to universities and must have completed their secondary education in a high school in which the education is equivalent to that of a Turkish lycee; they need to have it confirmed from a Turkish Embassy in their country and apply for a student visa. The applications of foreign students will be considered by the universities within their limit of the allocated places for foreigners. The students must also take the Foreign Student Entrance Examination (YÖS) which consists of two tests; a "basic learning skills test" where they must score at least 40, and a "Turkish language proficiency test" to see their Turkish language level, if any. Language courses are organized for those who do not speak Turkish, and in some Turkish universities courses are taught in English, French or German.
